My favorite place: Atlas Health Center

My favorite place: Atlas Health Center

I love working out at the Atlas Health Center. They have state-of-the-art exercise equipment in large, air-conditioned rooms.

I can work out alone or with the help of one of the professional personal trainers. If I like to exercise with friends, I can join an aerobics or swimming class – or even try kickboxing! The staff nutrition experts are always on hand to talk with me about health issues.

When I've finished, I can relax with a whirlpool bath or a sauna. Come exercise with me at Atlas, and you'll soon be feeling strong and looking good.

Switzerland – Something Interesting at Every turn.

Switzerland – Something Interesting at Every turn.

If you dream of traveling to a country with beautiful mountains, delicious food, wonderful places to go sight-seeing, and polite people, you should visit Switzerland.

The first thing is that Switzerland has many mountains, including some of the highest in Europe. Climbing or skiing down the mountains is great fun.

Another thing is that Switzerland shares its borders with five different countries. They are France, Germany, Italy, Austria, and Lichtenstein. In fact, there are four official languages in Switzerland: German, French, Italian, and Roman. So Swiss people speak different languages and make their cultures very interesting too.

Finally, Switzerland has many cities and interesting places to visit. For example, Bern has modern buildings, yet the traditional alpine refuges in the mountains show that the country's old traditions are still alive.

All the people, places, and things to see make Switzerland a great place for a holiday.

My favorite place: a small café.

My favorite place to relax is a small café down the street from where I live. This café is on a small side street and as soon as you see it, you feel like going in. There are three windows on either side of the door, and each window has a small window box with brightly colored flowers. There is a small wooden door that opens into the café, and as you go in, you can see a dozen small tables all around the room. Even though it isn't a big place, its size makes it very cozy and comfortable. I always like to sit at a small table in the corner near the front windows. From here, I can look at the artwork on the walls and at the pretty green plants hanging from the ceiling. With a strong cup of coffee and a good book, I feel very happy and relaxed in my favorite café.
